

Performance Sizzles as Steakhouse Chain Implements High Tech Solutions

**Ken Stone,
MIS Director:**

"CompuData is the best out there. They did an outstanding job of providing technical support. Their staff is familiar with all ends of networking and are fully knowledgeable about software and hardware solutions."

When you're a company that controls over 100 Sagebrush Steakhouse, Western Steer and Prime Sirloin restaurants with more than 4000 employees in four states, what's your recipe for success? If you're the Claremont Restaurant

restaurants previously arrived via the pony express, and was not being provided to the central office in a time efficient manner." The new system resulted in increased productivity and improved profits.

CompuData also worked with CRG to reign in a payroll operation that was in need of taming. CompuData helped consolidate the system and CRG trained more than 250 restaurant managers in software operations to ensure that the new system was implemented without a hitch.

Stone noted that these changes have created real savings. "CompuData is the best out there. They did an outstanding job of providing technical support. Their staff is familiar with all ends of networking and are fully knowledgeable about software and hardware solutions."

Group (CRG) based in Charlotte, North Carolina, you collaborate with CompuData, Inc. to develop computer-based solutions for this ever-changing industry. CompuData has been providing Information Technology solutions to businesses for 30 years.

Since 1998, CompuData, with offices in Charlotte, North Carolina and Philadelphia, Pennsylvania, has worked hand in hand with CRC's MIS staff to develop solutions for this restaurant management group, whose business depends upon up-to-date information on inventory, sales and performance in order to remain profitable. Having collaborated with CRC in creating its computer backbone from the ground up, CompuData is currently implementing a Citrix MetaFrame solution to achieve real time numbers from individual restaurants.

INCREASE PRODUCTIVITY AND IMPROVE PROFITS

According to Ken Stone, CRC's MIS Director, "CompuData beefed up CRC's server to put them in contact with 100 of their restaurants. Information from individual
